How To Link Nanacast.com and WishList Member

Want to use Nanacast for Affiliate Tracking and payment handling and still deliver secured, drip-fed membership content through Wordpress using Wishlist Member?

With WishListCast you can do exactly that. Here's how...

Grab Nanacast

Grab Nanacast through http://nanacast.co (yes, that's my link) :-)

Grab and Install WishList Member

Refer to Wishlist documentation for this
http://wishlistproducts.com/

Grab and Install WishListCast plugin

Grab WishListCast plugin at http://nanacast.com/wishlist-plugin
Upload through standard Wordpress plugin install process

Create a Membership Level in WishList

Dashboard   Settings   Members   **Membership Levels**   Sequential Upgrade   Integratio

WL Member » Manage Membership Levels

(X)	Membership Level	Registration URL ❓
☐	enrolled	Copy URL | Edit URL

[+] Advanced Settings

Refer to Wishlist documentation for how to do this

Shopping Cart Integration

Select System   Generic   ⬍ ❓

Generic 3rd Party System Integration

The Generic 3rd Party System Integration allows you to integrate your custom shopping ca

» Integration instructions can be downloaded here.

Post URL

The Post URL is where you send your information to.

http://www.socialmedialaunchsystem.com/index.php/register_____   (change) ❓

Secret Word

The Secret Word is used to generate a hash key for security purposes.

[_____3BMafhjno] [Change] ❓

Membership Level SKUs

The Membership Level SKUs specifies the membership level that should be tied to each

Membership Level	SKU
enrolled	1289053772 ❓
free	1289053837 ❓

You need to know the "Secret Word" and the SKU for the membership you want to link

Create a Membership in Nanacast

This is the membership we will link to your Wishlist Membership Level
(i.e. signing up to this Nanacast membership will add you to Wishlist)
Refer to Nanacast documentation for how to do this.

Add "Password" as a custom field

Permanent Field: password
Type: text
Field Name/Question: [Password]
Default Value: [   ]
Field is Required: ☐
Note: The system may require this field anyway even if you have this unchecked, depending on your other settings. For example, firstname, lastname and email are always required for memberships, and address is always required for shipped products.

Do Not Show Field on Embedded Form: ☐ ❷ If you're using PayPal, make sure you capture all shipping address fields on the embedded form!

Do Not Show Password Field and Auto-Generate Password Instead: ☑ ❷

Show second verification box for client to re-type info: ☐ ❷

**Size:** [0] (Enter 0 for default size)

This is a "Date" field: ☐ This will cause a date-picker box to open when client clicks on the box

Put field name and text box/drop-down box on two separate lines: ☐ This is helpful if your text box/drop-down box is really wide and is breaking the table width.

This is the same as if you were using MemberLock

Tick the box to "not show password field and Auto-Generate Password Instead"

Link to WishListCast from your Nanacast Membership Custom Fields/Notifications

This is where you will link Nanacast to Wishlist through the WishListCast plugin

http://YOUR-BLOG.com/wp-content/plugins/wishlistcast/wishlistcast_api.php?security_code
=**WishListSecretKey**&levels=**membershipSKU**

If you have multiple membership levels you want to join you can use a "pipe" (|) to separate them,
eg.
http://YOUR-BLOG.com/wp-content/plugins/wishlistcast/wishlistcast_api.php?security_code
=**WishListSecretKey**&levels=**membershipSKU_1|membershipSKU_2|membershipSKU_3**

Note: Line breaks here are for readability - the command goes all in one long line.

New in v1.1.0 - Set a Default User Role
You can now set a default Wordpress role for the new user by adding **&role=roleName** (e.g.
&role=subscriber to the link command e.g.
http://YOUR-BLOG.com/wp-content/plugins/wishlistcast/wishlistcast_api.php?security_code
=**WishListSecretKey**&levels=**membershipSKU**&role=**editor**

If you do not specify a role, then the "New User Default Role" from your Wordpress Dashboard Settings | General will be used.

If you want the new user to have NO Wordpress role use **&role=none**

Test by creating a New member

☐ **Coaching with Steve**   Advanced API ID: **97799**

-   **No Chapter Assigned:**

Add a new member in Nanacast.

The member will appear in your Wishlist Members

Check member appears in WishList Members

At this point, integration is working.

If you Unsubscribe the member in Nanacast, they will be Cancelled in Wishlist (simulate PayPal / credit card recurring payment stopped).
If you Resubscribe the member in Nanacast, they are Re-Activated in Wishlist (simulate PayPal / credit card recurring payment resuming)

Set Thank You Email

Make sure that the email you send to new members directs them to your Wishlist membership site (default is Nanacast).
To do this, just change the Website URL.

Bulk uploading existing members from Nanacast to Wishlist

Options: Overview ② | Edit Listing | Edit Pricing/Delivery | Upsells | Email Sync

If you have existing Nanacast members, you can easily bulk upload them to your Wishlist site by going to your Nanacast membership list (click View Active)

Upgrading existing members - make Nanacast members "Pending"

☑	Edit	851274	Steve Ovens	steven.o..mail.com	Nanacast - Wishlist Integration	Subscribed

Prev   Next

Check/Uncheck All
Do the following to checked:
Pending ▲▼ (Update Status)
(Create Personal Broadcast) ② (Resend Email Receipt)
(Delay Recurring Billing) (Resume Recurring Billing) (Works only for Credit Card customers)

Hit Check/Uncheck All and change status to "Pending" - this will send an unsubscribe message to Wishlist (as the members don't exist in Wishlist yet, this will have no effect).

Upgrading existing members - find "Pending" members

Next we use the Advanced Search functionality to find the existing Pending members

Client Search for Nanacast - Wishlist Integration

Simple Keyword Search on Personal Info Fields:

Name, Address, Email, IP, External Order ID, Account ID, etc...

Search Dates: (Ignore Date Search)

Subscriber Status: Pending

Reason For Unsubscribe: (most useful when you pick "Unsubscribed" from Subscriber Status)

Any Reason (Ignore)

Has Been Shipped: Any Shipped Status (applies to manual fulfillment)
Affiliate ID: Any Affiliate
Link Campaign ID:
Link Campaign Custom Tag:
Coupon ID Used: (Numeric Internal Coupon ID ex: 12345)

Advanced Search Criteria Builder:

Add New Search Criteria

email | Matches (use % for wildcard)

Remove

Save This Search Upon Submit: ☐

Show Referrer & Affiliate Info in Results: ☐ (Doesn't apply to Keyword Search & Highlight)
Sort By: Relevance Descending

Search

Search for subscriber's with "Pending" status

Upgrade existing members - set status to Subscribed

You may optionally Resend email receipt - this will send your subscribers the "thank you" email with their Wishlist login details.
